

ALSAN SODIUM BENTONITE

Bentonite Cat Litter

Premium clumping cat litter produced from selected natural sodium bentonite.

Reliable mineral solutions for demanding applications

ALSAN Bentonite Cat Litter absorbs liquid rapidly, forms firm compact clumps and supports long-lasting odour control. Controlled granulation and exceptionally low dust help provide clean, economical and comfortable daily use. Marseille soap, baby powder and lavender fragrance options are available.

Key benefits	Typical applications
- Fast and firm clumping - High liquid absorption - Effective odour control - Very low dust - Fragranced and unfragranced options	- Household cat litter - Private-label brands - Pet retailers - Wholesale and export - Custom packaging programmes

Typical technical characteristics

Parameter	Typical target	Test / note
Water absorption	Typically 350-400%	Absorption test
Clump strength	Typically 37-42 N	Strength test
Montmorillonite	Minimum 90%	Mineralogical control
Dust content	Approximately 0.05%	Controlled method
Granule size	Customer-specific	Sieve analysis

Application guidance

Fill the litter tray to a depth of approximately 7-8 cm. Remove solid waste and firm clumps daily. Refill only the removed quantity to maintain the recommended depth. Store unopened and opened packages in a clean, dry place protected from moisture.

Quality assurance

Raw-material selection, moisture, particle size and application-relevant performance values are controlled by batch. The agreed product specification and the certificate of analysis (CoA) for the delivered batch govern conformity assessment.

Packaging and storage

Standard supply is available in moisture-protected bags or big bags. Store in a clean, dry and covered area protected from water and contamination. Grade, packaging and delivery conditions can be adapted to customer requirements.

Technical note

Values shown in this catalogue are typical product targets and are not a binding delivery specification. Please contact ALSAN for grade selection, samples, current specifications and application support.
